Agenda

1) Introductions

2) Actions from last meeting

- Hand out a site plan for all members – Photocopy on Monday. New micro-cited position map to be sent out via email. - COMPLETE
- Blog/message board – Spoken to our website technical guy and will update pre-construction. – Decided that an updated website would suffice.
- CS – Would like a final turbine description and the noise levels of the turbines. Would like a noise model graph for the Nordex N-90, similar to the graph that was included in the ES. - COMPLETE
- Site visit to a Fenland site to be arranged by NRL.

2) Update on construction latest

Construction of the compound is underway.
Beyond that we will start access tracks on site.
Piling work around mid-November.
Turbine delivery end of May-June 2008

CS) Will works on a bridge in to the site mean a closure to the A259?

MK) No plans to close a lane however consultation with highways will take place before the work commences.

3) Comments from the committee

NE) Can we link the archaeological report on the website.

MK) We have not yet received a report from the archaeological surveyors.

CS) Sign at site entrance is blocking the view of motorists.

IG) Work has taken place to move signs. We will re-lower the sign.

4) AOB

Thanks for attendance

Next meeting – 20th November 2007
